## Redesigned WhiteWaterOnline.com Debuts

We are pleased to announce the debut of our redesigned website.

While continuing to provide an outstanding source for information, the new website is updated in a more logical and professional format.

With the aid of the Larson Design Group in Sturbridge we are able to present a look that is both appealing to the eyes and clearly states WhiteWater's mission to its clients, both existing and potential. Our streamlined Homepage allows users to more easily access information. Prospective clients are able to get an overview

of the type of service WhiteWater provides in our Services section.

The site also contains helpful links to crucial government websites, contact information, downloadable versions of the *WhiteWater Rapid*,

an About Us section which gives an overview of our company, and a page dedicated to career opportunities for potential employees. Community water systems can access each system's Consumer Confidence Report, which can also

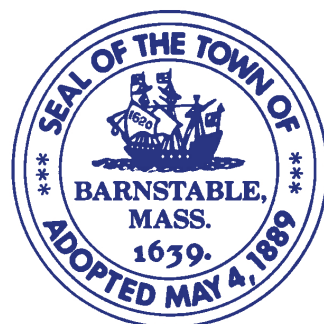

WhiteWater's website features a sophisticated new look.

be easily accessed directly from the Homepage. Additional customer capabilities will be added in the future.

Please take the time to visit [www.whitewateronline.com](http://www.whitewateronline.com) and let us know how we can help you.

## Hyannis Water Renews WhiteWater Contract

WhiteWater is pleased to announce that the Town of Barnstable has extended its contract with WhiteWater for the operation and maintenance of the

Hyannis Water system. WhiteWater has operated the public water system since February 2006 under a two year contract. That contract has been extended for an additional year.

The Hyannis water system currently serves approximately 7,400 service connections in Hyannis, Hyannisport and West Hyannisport from its two treatment plants and twelve pump stations. It boasts a distribution system of over 100 miles of piping and an area of nine square miles. WhiteWa-

ter's contract includes operation and maintenance of the pumping stations, treatment plants, cross connection control services, distribution system, fire hydrants and gate valves. It also calls for complete rehabilitation of two system wells per year along with programs for hydrant painting and meter installation.

We look forward to continuing our services to meet the needs of the Department of Public Works, Town of Barnstable, and the people of Hyannis.

## Longtime DPW Director Retires

Farwell to Mr. Hamer D. Clarke, Department of Public Works Director for the Town of Southbridge. Mr. Clarke retired on Monday December 10, 2007.

Hamer played a key role in the contract between WhiteWater, Inc. and the Town of Southbridge to operate the Municipal Water system and is a true believer in Contract Operations. We wish him a long and prosperous retirement.

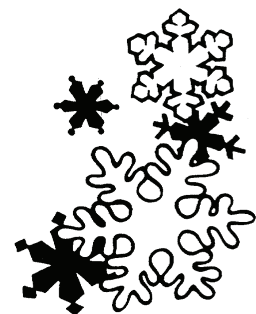

## Our Community Connection: Joslin Camp

*Pictured: Joslin Camp Caretaker Peter Starkus, WhiteWater Division Manager Russell Tierney, Camp Administrator John Latimer, and WhiteWater Division Manager Robert Sullivan*

WhiteWater is dedicated to helping local communities and other organizations. Recently WhiteWater donated \$2000 to the Joslin Camp, which is operated by the Joslin Diabetes Center. The camp, a small water system customer of WhiteWater, is located in Charlton, MA. Organizations like the Joslin Diabetes Camp are a key factor in the growth and development of children who must live day to day with this life-changing disability. WhiteWater and R.H. White Companies are proud to assist organizations such as the Joslin Camp.
